TO GET THE NEWS—ALL OF THE NEWS—YOU'LL HAVE TO READ THE REVIEW—IT'S ALL THERE.

HENRY G. DAVIS.
Ex-Senator Henry G. Davis, the vice presidential candidate on the Democratic ticket, is a millionaire, who is tremendously popular in West Virginia, where his interests employ thousands of men.

Both Sides Claim Victory Strikers Will Not Yield

PRESIDENT DONNELLY WILL NOT ASK ROOSEVELT TO TRY TO BRING ABOUT SETTLEMENT. ALLIED TRADES ASKED FOR REINSTATEMENT, SAY THE PACKERS. LEADERS STATE THAT THEY HAVE NO KNOWLEDGE OF THIS ACTION. STRIKERS ARE WELL SUPPLIED WITH PROVISIONS TO CARRY ON THE STRIKE INDEFINITELY.

DON'T WANT INTERFERENCE FROM ROOSEVELT

Chicago, July 30.—The conflict between capital and unionism, which has been going on in the packing trade industry throughout the country for nearly three weeks, shows no sign of abatement. Tonight both of the opposing interests seem as determined as ever to fight to a finish. The packers declare they have practically won their fight and the strikers are becoming demoralized. In direct opposition to the statement of the employers, the strike leaders assert that the victory is with the workmen, and it will be a matter of but a short time until the packers will be compelled to ask for peace. The leaders of four of the allied trades unions which went on strike in sympathy with the packing house butchers are said by the packers to have made overtures for reinstatement today. The strike leaders disclaimed any knowledge whatever of the action taken by the four unions and repeated their assertions that the outlook for victory for the striking workmen is brighter than ever. During the afternoon there was an attempt on the part of disinterested parties to induce President Donnelly,

of the Butchers' Union, to appeal to President Roosevelt to offer his good offices and bring the strike to a close. Mr. Donnelly refused to consider the proposition. "We are winning the strike, and need no help from the president," said Mr. Donnelly. "There may be a few desertions from our ranks, but they are comparatively few, and do not hurt our cause to any great extent. All talk about the strikers being on the verge of starvation is nonsense. Up to date there have been about two hundred of the entire number of strikers who have applied for relief. We are prepared to carry the strike on indefinitely and are having stations well equipped for the purpose of supplying all our men with food, and the distribution will be increased as the strike continues. Relief stations were opened today by the strikers' relief committee, and all day men and women were coming and going for food. By evening all the supplies of the station had been given away. Many persons had to be turned away. The strikers say the reason the supplies gave out so quickly was because hundreds of outsiders took advantage of the opportunity to secure free provisions.

PRESBYTERIAN MISSIONARIES MAKE APPEAL FOR INDIANS

Washington, July 31.—An appeal was made to President Roosevelt today by a committee representing the Presbyterian Board of Home Missions, in behalf of the Pima Indians, about 5,000 in number, in Arizona, who are said to be perishing owing to the fact that the waters of the Gila river have been diverted from their reservation. The committee stated that no water was available for the irrigation of the Indians' lands, and the Indians are said to be on the verge of starvation because of the failure of their crops. The President promised an investigation, which has been before the interior department for a long time. The Pima Indian reservation is located in Pima and Maricopa counties, and Lacaton is the agency headquarters. These Indians at one time were a prosperous tribe. They tilled the soil and sold their products at Phoenix and Tucson. But the white settlers on the Gila river, above Florence, year by year, diverted more water from the river, until the Indians' crops withered and died from lack of irrigating water. Last year the Indian Department was forced to make an appropriation for the sustenance of these Indians. The underground water of the Gila river in the Pima reservation, was recently reported on in a favorable manner by Willis T. Lee, of the geological survey.

of the Butchers' Union, to appeal to President Roosevelt to offer his good offices and bring the strike to a close. Mr. Donnelly refused to consider the proposition. "We are winning the strike, and need no help from the president," said Mr. Donnelly. "There may be a few desertions from our ranks, but they are comparatively few, and do not hurt our cause to any great extent. All talk about the strikers being on the verge of starvation is nonsense. Up to date there have been about two hundred of the entire number of strikers who have applied for relief. We are prepared to carry the strike on indefinitely and are having stations well equipped for the purpose of supplying all our men with food, and the distribution will be increased as the strike continues. Relief stations were opened today by the strikers' relief committee, and all day men and women were coming and going for food. By evening all the supplies of the station had been given away. Many persons had to be turned away. The strikers say the reason the supplies gave out so quickly was because hundreds of outsiders took advantage of the opportunity to secure free provisions.

GOVERNMENT WILL DO NOTHING

NOTHING WILL BE DONE ABOUT MURDER OF AMERICANS IN MEXICO.

CONSUL IS A PUPPET

American Consul in the Land of Toros Will Report as Mexican Officer Dictates—State Department Will Accept Doctor's Report.

El Paso, July 30.—As the days go by and there seems to be no disposition on the part of the American authorities to force the Mexican government to punish the Mexican assassin who so wantonly and cowardly murdered Clarence Way and Latimer, at the instigation of the alcalde, at their house in Aguascalientes, the friends of those men, and particularly of Way, are beginning to talk of taking the matter into their own hands and forcing a thorough investigation.

From reports that have been received here from men who have resided in Aguascalientes and the State of Sinaloa, it seems that General Torres is all powerful, and he bulldozes the American officials there into doing just as he says and making the reports that he seems fit in connection with any matter that investigation is demanded upon by the American government.

In this case the state department at Washington and the Mexican department of the interior have no official information in regard to the matter. All they know of it, or claim to know, is just such information as has been furnished by closely censored press dispatches.

In view of these facts it is not at all improbable that the matter of this cowardly assassination will be allowed to go by, as many of like character have before. The following is the only report that the state department at Washington has received from the American consul at Mazatlan, the nearest point, shows that there will be a report rendered that will tend to exonerate Torres and his puppets, who were sent by him to commit the murder. The report is as follows:

"Washington, July 28.—The American consul at Mazatlan, Mexico, has reported to the state department on the recent shooting of two Americans at Aguascalientes. He says that the alcalde went to the office of the recorder and asked him to arrest Clarence Way, which he refused to do, claiming there was no reason therefor. The alcalde then made out the warrant himself. The commissioners met Mr. Way in front of his house and showed him the order of arrest, and he replied that he would accompany them as soon as he had eaten his breakfast and changed his clothes. They objected to this and undertook to carry him, when Mr. Way called the cook, Latimer, who came out unarmed, and tried to prevent the arrest. After Mr. Way had been forcibly taken Latimer started into the house, and one Castro, thinking he had gone for arms, shot and wounded him. Mr. Way, seeing this, attempted to enter the house whereup Castro fired twice, killing him instantly. The alcalde and two commissioners are now in jail."

To show what the Americans who are in touch with the situation at Aguascalientes and in possession of all the facts think of the matter, the following letter was received in this city yesterday by a well known real estate firm from a personal friend of one of the members who is mining in that district. He says in part:

"Of course you have read the account of the assassination of Clarence Way and his companion. I was indeed sorry to hear of it, but not surprised, as General Torres is 'all of it' on the Pacific side, and the power and privileges extend to the family. I am also sorry for the American consul and for Mr. Roosevelt and the secretary of state, because the consul must make the assassination justifiable, even if it is necessary to say that Way and his friend were instigating the Yaquis in their war against the government, or that they were organized bandits, or any other evil thing, and, knowing that their guilt had been discovered, they resisted arrest and in consequence were killed. I presume that General Torres will instruct the consul, and measuring him by all of the other American consuls that I have seen in Mexico, he will prove obedient to his instructions, and his evidence will relieve Mr. Roosevelt and the secretary of state from doing anything that would jeopardize the peace of the country, for, in case the peace was jeopardized, naturally it would tend towards a depreciation of Mexican (Continued on Page Eight.)

Awful Havoc Wrought by Floods In Northern Arizona

Kingman, Ariz., July 31.—The heavy rains in the mountains east of Truxton last night sent down a wall of water twenty feet high through the canyon, washing out the Santa Fe R. R. track, embankments, bridges, telegraph poles and everything movable for a distance of twelve miles. The great steel bridges were taken from their foundations and piled up against the walls of the canyon. Massive stone abutments crumbled and were carried away. At Crozer everything movable including the station signal, telegraph poles and box cars, were piled on the big steel bridge to the west of the station. At Hackberry the pump house and machinery were destroyed and swept into the valley miles away. The big well was filled to brim with debris. Houses high above all heretofore known high water marks were flooded and much damage was done. Hundreds of men have been hurried to the washout by the Santa Fe, but it will be some time before the water subsides sufficiently to allow the workmen to reconstruct the roadbed and bridges. Many miles of telegraph lines are down, and it will take some time for repairs.

Santa Fe Train Cuts Down Barber

FLAGSTAFF MAN IS INSTANTLY KILLED BY A LIMITED TRAIN.

Thursday afternoon J. E. Wygal left his barber shop on Railroad avenue in Flagstaff with his gun and dog for a hunt east of town, expecting to return before dark, says the Sun. Not returning his brother became anxious as to his brother's safety and, with a number of others, joined in a search for the hunter. The searchers could find no trace of the missing man, although the country east of and adjoining town was thoroughly searched.

About half-past ten Aaron Berg and Bernard Wells, who were returning to Clifton from Flagstaff on a velocipede car, discovered the body of a man on the Santa Fe track, in a cut about a mile and a half east of the depot. They returned to Flagstaff and notified Agent Sullivan, who with a number of others went to the place indicated and the body proved to be that of Ed Wygal. He had evidently been walking on the track when struck by the westbound train presumably the limited.

His body was horribly mangled and cut in three places. His gun, which had not been fired, was lying a short distance to the west, and his hat several feet in the opposite direction. Coroner Quinlan was notified and a jury summoned, who investigated the affair and returned a verdict to the effect that Wygal met his death in an accidental manner.

MEXICAN OFFICIAL ARRESTED.

Tucson, Ariz., July 30.—Gilbert Larrea, director of the Federal Telegraph company at Mazatlan, Mexico, was arrested Saturday, charged with the embezzlement of \$13,117 of the funds of his office. His defalcations have extended over a period of years.

Larrea is a man of prominence in the State of Sinaloa. V. R. Stiles and Garnett King, of the traffic department of the E. P. & S. W., arrived yesterday to personally conduct the big excursion to Douglas. Mr. Stiles has been connected with the E. P. & S. W. for the past thirteen years.

Battle Front Was Nine Miles In Length

NEW MINISTER OF INTERIOR WILL BE COUNT IGNATIEFF.

St. Petersburg, July 30.—The report of Gen. Zaroubaleff, which was given out tonight, furnishes the first detailed account received here of the battle of July 24, and leading up to the evacuation of Ta Tche Kiao, the fruits of which are already apparent in the occupation of New Chwang by the Japs. Gen. Zaroubaleff says that the attack followed a junction of the armies of Gens. Oku and Nodan, and that at least two divisions, greatly superior in number and arms, participated in the assaults on the Russian position, which was held by only eighteen battalions over a front of nine miles.

The determined nature of the assault and the defense is shown by the fact that there was a continuous fight of fifteen and a half hours, during which the Russians held their positions, retiring the next day only in the face of the advance of the whole of the Japanese armies, consisting of more than seven divisions.

Russian loss is estimated at 20 officers and 300 men, and the Japanese losses are estimated as "greater than ours." This probably is correct, in view of the fact that the Japanese occupied the attacking positions.

Before the withdrawal of the Russians, the report says, they captured considerable small arms and ammunition during four successful bayonet charges, while the batteries, which were excellently served, several times silenced the Japanese artillery at various points along the fighting line.

Von Plehve's Successor.

London, July 30.—A special dispatch from St. Petersburg to the Agency Russ says that Count Ignatieff will succeed the late Von Plehve as Minister of the Interior.

H. M. Woods embarked for Tombstone yesterday, but was forced to turn back at Naco on account of the washouts.

L. A. Nemick, of the old Alhambra firm of Nemick & Thomas, has purchased the entire interest of Mr. Thomas, and will conduct the business alone in the future.

SAN PEDRO BRIDGES GONE

RIVER HIGHEST STAGE YESTERDAY IN RECOLLECTION OF OLDEST INHABITANT.

HEAVIEST FLOOD YET

Doubtful if Train From Benson Will Arrive in Bisbee Before Monday—S. P. Branch to Nogales Tied Up—All Bridges on San Pedro Washed Away.

No trains arrived in this city yesterday from Benson, and according to reports received late last night it is doubtful whether any train will arrive from the west before Monday.

The heaviest flood known in this section swept down the San Pedro on yesterday, and the passenger train bound for El Paso from Benson was caught between Fairbank and Lewis Springs, and forced to return to the latter station and tie up. In the meantime the big bridge across the San Pedro below Fairbank, on which the train had crossed a few minutes before, was swept away, and the passengers found themselves water bound at Fairbank. During the day the Tombstone train made a special run to Fairbank, and most of the passengers went to Tombstone, where they spent the night.

It is reported that yesterday at 3 o'clock a mile of track between Fairbank and Lewis Springs was under water. Several stretches of track are gone in this vicinity, and must be repaired before the pile driver can reach the big bridge on the San Pedro. The S. P. bridge on the Nogales branch is also gone, but the big steel bridge on the main line of the S. P., at Benson, has so far withstood the floods.

The Huachuca band, which was billed for a concert in Bisbee last evening, failed to arrive, but went to Tombstone. Three hacks were sent to Tombstone last night by the Bowen & Henderson stables to bring the band to this city, where they will arrive this morning to take the excursion train for Douglas, where the big celebration will be held as advertised.

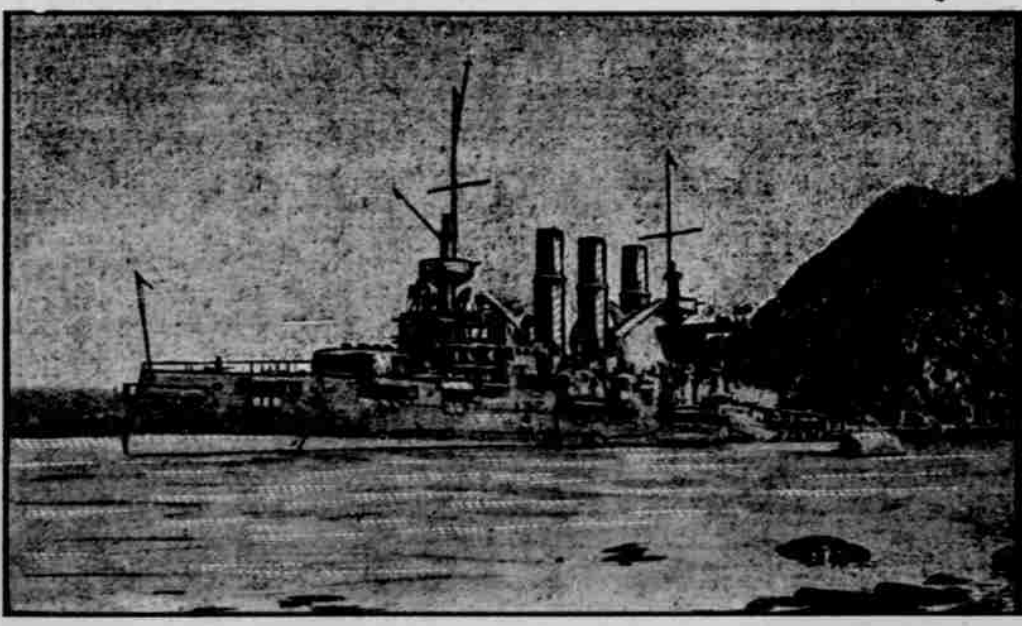

Excursion trains will run from Bisbee and Naco, and will leave Bisbee for Douglas at 9:20 this morning. Ten passenger coaches were in the yards last evening for the purpose of carrying the excursionists to the smelter city.

President of Columbia Declared a Traitor

PRESIDENT-ELECT FACES SAME CHARGE — REBELLION IS RAMPANT IN BOGOTA.

Colon, Colombia, July 30.—News from the coast of Cartagena says rumors are in circulation of an upheaval in Bogota. President Marroquin and President-Elect Reyes are, rumor says, declared to be traitors, and congress has been closed.

The town is frantic, and the people of Cartagena are anxiously awaiting confirmation of the rumors.

RETIVISAN, TORPEDOED AT PORT ARTHUR.
It has been found very difficult to smuggle out of Port Arthur photographs of the crippled Russian vessels and the damaged portions of the town. The Retvisan is an armored cruiser of the first class, and one of the most powerful vessels in the original Port Arthur fleet of the Russians. The vessel was torpedoed weeks ago by Admiral Togo's fleet, and was beached by her captain just inside the gateway to the inner Port Arthur harbor. She has never apparently been moved, and will doubtless be blown up by the Russians just before the Japs capture Port Arthur from the land side.
